

## Weight loss testimonials.

For the past few months I have had a number of people testing a new approach to weight loss with a new breakthrough product.

I have been thoroughly checking this out as it has enormous potential, as it does not require any special diet or food restriction of any kind.

The main reason people give up on diets is that they get tired of having to put up with the restrictions.

Therefore if this worked I knew it had great potential.

In January 2009 we investigated a new product **based on a new breakthrough peptide technology.**

What I have learned is that when we lose weight through dieting half of what we lose is fat and the other half is lean muscle.

According to statistics, 95% of people regain that weight, but what goes back on is just fat, then the vicious cycle begins.

What appealed to me about this product is that it **targets fat** and not lean muscle.

What also appealed to me that I could have this **protein powder** in my coffee or hot chocolate and didn't need to slog it out in a gym or eat like a rabbit.

Well, here you can see some of the testimonials, let these people speak for themselves:

Best wishes,

*Hello Eddie,*

My name is Deborah  
.....I am 54 years old.

Sandra introduced me to you in March 2009. I wanted to lose weight and slim down because my son was being married in July 2009. I wanted to look beautiful as a mother of the groom, I only had 3 months to get my body fit and slim.

After taking your products for two weeks I was delighted to find I lost 8cm from around my waist and all the fat on my chin, neck, hands and legs, also slowly disappeared.

Because you burn fat and save muscle, amazing! My weight only dropped 2 kgs.

Another benefit was clearing up a health issue. I had to take a medicine called Magicul for my gastric problem (Reflux) but since your products I have stopped taking this medicine.

Thanks to you.

*"Hi Eddie, I just wanted to share this---I have lost 4.5 Kilos on this product in only 1 week!!!! It really does work miracles! I am only on day 6 today and I feel just FANTASTIC! I am also using the meal replacement product just in the morning as a shake and I have the ----- just in that. Then in the evening before dinner, I use frozen kiwi fruit with pineapple juice to make a frothy fruit drink. 4.5 kilos though in 1 week, that is mind-boggling! " "S" in Bali-----.*

*"I must say I as very skeptical, but after 3 weeks I was pretty thrilled with the results. The real excitement came after 2 months when I lost 3 Kilos body fat and 21 cm from my waist, hips, waist and arms. Next year I shall be 60 and I had almost given up on feeling OK in a bikini again, (is that called a mid life crisis?) Anyway, the lumpy bits on my body are being smoothed out and I am well on my way to looking fabulous in a bikini---WOOHOO!! --Marita."*

*"My products arrived this morning. I took my 1<sup>st</sup> glassful at lunchtime that day and went to work. All the time at work I could feel my body tingling. I took the second glass that night. The next morning I was curious to see what had happened. I had lost 2 cm off my arms, legs and hips and waist, I couldn't believe what had happened.*

*So far I have lost a total of 19 cm overall, 7 cm of those from my hips. I have not changed my diet or exercise or anything else. I am very excited about this result. The medication I am on has one of its side effects, weight gain. This does not seem to be a problem.*

*I can only suggest people to try these products and see the results for themselves". -- Rose.*
